

The Maine Event

Fall 2011

U.S. Route #1, Wells, Maine www.mainediner.com

It has been almost a year since the sudden and unexpected loss of my brother and business partner, Myles. All that knew and loved him are still shocked that he was taken from us at the young age of 54 -especially his wife Trisha, his two children, Sara and Derek, his close friends, the entire Maine Diner staff and his four brothers and two sisters.

Personally, I will miss his brilliant business savvy, his skillful PR work, his outgoing personality, his vibrant energy, his positive attitude, and of course, his passion for sports which we both have in common. In his short time on this earth, Myles lived life to the fullest. He met two Presidents and he played golf with his three favorite professional athletes Carl Yastrzemski, Luis Tiant and Larry Bird. He dreamed of someday owning and operating his own restaurant and he achieved that goal in February 1983.

Not enough can be said about the influence Myles had in the success of the Maine Diner. With the help of my loyal and dedicated staff we will continue to move forward by adhering to the basic principles which were set in 1983: serving good food at reasonable prices, providing fast and friendly service, and maintaining a clean establishment.

Myles touched so many lives. Even though he is not physically with us, his spirit will live on forever. He's in God's hands now. Rest in eternal peace, dear Myles.

Your loving brother,

Dick
